Give me a dozen healthy infants, well-formed, and my own specified world to bring them up in and I'll guarantee to take any one at random and train him to become any type of specialist I might select—doctor, lawyer, artist, merchant chief, and, yes, even beggarman and thief, regardless of his talents, penchants, tendencies, abilities, vocations, and race of his ancestors.
—John Broadus Watson

Whoso neglects learning in his youth, loses the past and is dead for the future. —Euripidies

Health is not a condition of matter, but of Mind; nor can the material senses bear reliable testimony on the subject of health. —Mary Baker Eddy
